

# *All about Sydney in Australia*

*enjoy!!*

# What is Sydney?

*Sydney is an amazing city you can see so many things like the harbour bridge and the opera house and many more. I've been to Sydney many many times, it's so fun. You can also try and visit an ice-cream shop called baskin and robins. Their ice-creams are so yum I LOVE the chocolate one, there are many flavours like mint, passion fruit, strawberry, mango, white vanilla and like I said chocolate Also dark chocolate*

# What is there to do in Sydney

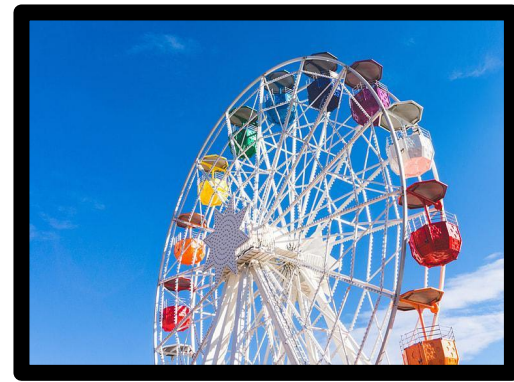

There are many things to do in Sydney, you can go to the park - they have a giant park and sometimes there are little games where others can join and they are started by others we sometimes jump over hurdles play with balloons and do many other things. You can also do other games or activities with your friends, family or your siblings. You could also go have lunch at the opera house they have many things you can eat. There is pizza, chicken and even chicken nuggets and many more and even some drinks like coca cola and lemonade and apple juice.

# Is there a theme park in Sydney

There happens to be a theme park and it's called LUNA PARK - luna like a name and park cause its a theme park you 100% absolutely must go there you can't miss it there are so many rides. They have a very intense ride that you go upside down it goes pretty fast but still scary.... BOO There is also another ride that is like a hammer that could do a full turn or half turn it changes every time and you can request something if you want either. There is also this huge ferris wheel is spins you around slowys till you are to the top then back to the bottom!!

# Why should you go to sydney?at

I 100% undoubtedly believe that you should go to Sydney cause look at all the fun things you can do and how there is a huge bridge and it looks amazing when the sun is shining on it!! And there is the world famous ice cream shop, I bet that you like ice cream and even if you have not tried it you will love it so much!!! You really really REALLY don't wanna miss the lights on the opera house. Sometimes at night you can see the opera house lights and if you may not want to do that and you're a bit hungry come in the day and you could stay till night The opera house is amazing. I bet you have never had pink lemonade it's super cool you would and could and should not find anything else that is cooler than a pink lemonade trust me you should go there and they even have chicken nuggets like WhAt. it's so fun you really should go there. That's why i believe you should go to Sydney.

*I also have a website for you to have a look if you need anymore information*
